Comfort™ SERIES

Comfort, Convenience, Power

Things to Consider Before You Buy

Efficiency

- As an ENERGY STAR® partner, Carrier Corporation has determined that the Comfort Series programmable thermostats meet ENERGY STAR guidelines for energy efficiency.

Comfort

Carrier's Comfort™ Series thermostats offer the most popular comfort options for today's homeowner. Depending on your lifestyle, choose a programmable or a non-programmable thermostat.

The Comfort programmable thermostat offers:

- Large, easy-to-read illuminated display for room temperature and clock
- One-button Touch 'N' Go™ settings for home, away, and sleep
- Four daily time periods for more temperature options
- Two fan options

The non-programmable Comfort thermostat features:

- Large, easy-to-read illuminated display for room temperature and settings
- Two fan options

Touch·N·Go™

Press one Touch 'N' Go button - home, away or sleep - to tell your Comfort programmable thermostat where you'll be and when so it adjusts your home's temperature accordingly. It's the ideal solution for somebody who prefers different comfort settings for different lifestyle situations.

- home** With our new Touch 'N' Go thermostats, maximizing your home comfort is common sense. With intuitive push button controls, Carrier's Comfort programmable thermostats have removed the complexities from home comfort.
- away** Say "bye-bye" to unnecessary heating and cooling costs while you're out for the day. Even if you're not home to feel if the heat or air is on, it seems like you feel it in your wallet. But thanks to our user-friendly Touch 'N' Go technology, it's easy to stop kicking yourself for not setting back the temperature while you're away for the day or sleeping.
- sleep** Rest easy with the worry-free way to enjoy maximum comfort and maximum energy savings all day, every day. Make your home a place of relaxation where there is no too hot or too cold, but only just right.

Ease of Use

Comfort Series technology makes setting your thermostat for maximum home comfort as easy as pressing a few buttons. The illuminated display features large, easy-to-read settings, with simple graphics that guide you quickly through any process. The non-programmable model lets you press just one button to set and hold your home's temperature indefinitely - it couldn't be easier!

Technology

- 1 Display** – Large, illuminated display makes it easier than ever to monitor your home's comfort.
- 2 Power** – Touch 'N' Go buttons let you tell your thermostat if you're home, away, or asleep quickly and easily.
- 3 Easy** – Press just one button to change temperature settings or tell the fan to run continuously.
- 4 Attractive** – The sleek, contemporary design fits with any home decor.

Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
